

M2TECH APPOINTED “MQA PARTNER”

Pisa, May 19th, 2018

Starting April 28th, 2018, M2Tech is officially MQA partner.

The prestigious recognition follows the Young MkIII certification by the technical commission of the English house in relation to the implementation of the MQA decoder.

M2Tech has adopted MQA to support master quality playback and streaming. MQA is an innovative encoding algorithm that captures the original master sound quality; ‘folds’ the file into a smaller size for easy streaming or download; and authenticates the file when it plays back on an MQA-enabled device.

M2Tech recognizes the sonic and technical advantages of MQA, therefore all M2Tech DAC products will include MQA in their format decoding pool.

M2Tech is in good company in the MQA group of partners, which includes large multinationals and historical brands of hi-end audio, and is the only Italian company in the sector to have received this prestigious award.

For more details, visit the M2Tech website www.m2tech.biz and the MQA website www.mqa.co.uk.
